

# SUMMARY REPORT Part I SoE 2018 Report Card

## Legend

### Status

<p><b>N/A Not Applicable</b></p> <p>The indicator assessment is based on future projections or the change in environmental condition and providing a status assessment is not applicable. Only a trend assessment is provided.</p>	<p> <b>Unknown</b></p> <p>Data is insufficient to make an assessment of status and trends.</p>	<p> <b>Poor</b></p> <p>Environmental condition is under significant stress, OR pressure is likely to have significant impact on environmental condition/human health, OR inadequate protection of natural ecosystems and biodiversity is evident.</p>	<p> <b>Fair</b></p> <p>Environmental condition is neither positive or negative and may be variable across Victoria, OR pressure is likely to have limited impact on environmental condition/human health, OR moderate protection of natural ecosystems and biodiversity is evident.</p>	<p> <b>Good</b></p> <p>Environmental condition is healthy across Victoria, OR pressure is likely to have negligible impact on environmental condition/human health, OR comprehensive protection of natural ecosystems and biodiversity is evident.</p>
--	---	--	--	---

### Trend

<p><b>N/A Not applicable</b></p> <p>This indicator assessment is based on current environmental condition only and it is not applicable to provide a trend assessment. Only a status assessment is provided.</p>	<p> <b>Unclear</b></p>	<p> <b>Deteriorating</b></p>	<p> <b>Stable</b></p>	<p> <b>Improving</b></p>
--	---	---	--	---

### Data quality

		
<p><b>Poor</b></p> <p>Evidence and consensus too low to make an assessment</p>	<p><b>Fair</b></p> <p>Limited evidence or limited consensus</p>	<p><b>Good</b></p> <p>Adequate high-quality evidence and high level of consensus</p>

## WASTE AND RESOURCE RECOVERY

Indicator	Summary	Status				Trend
		UNKNOWN	POOR	FAIR	GOOD	
<p><b>W:01</b> Total Waste Generation</p> <p><b>Region</b> Victoria</p> <p><b>Measures</b> Tonne/yr</p> <p><b>Data custodian</b> Landfill data (EPA) and Victorian Recycling Industry Annual (SV)</p>	<p>Reported waste to landfill plus reported material recovered (recyclables and organics), not including hazardous waste.</p>					
						
		<p><b>DATA QUALITY</b></p> <p>Good</p>				

\*While this indicator summary report card is specific to this chapter of the SoE 2018 Report, a full indicator report card across all report themes is available for free download.

# SUMMARY REPORT Part I SoE 2018 Report Card

## Indicator

**W:02** Generation of municipal waste per capita

## Region

Victoria

## Measures

Kg/capita

## Data custodian

Victorian Local Government Annual Survey (SV) and ABS population figure

Kerbside waste and recycling collections by weight divided by population.

DATA QUALITY

Good

## Indicator

**W:03** Total food waste Generated

## Region

Victoria

## Measures

Tonne/yr

## Data custodian

SV 2009 landfill audit data modelling of kerbside collections.

Estimates of the total food waste generated.

DATA QUALITY

Good

## Indicator

**W:04** Diversion Rate

## Region

Victoria

## Measures

%

## Data custodian

Landfill data (EPA Victoria) and Victorian Recycling Industry Annual Survey (SV)

Reported material recovered as a percentage of total non hazardous waste generation.

DATA QUALITY

Good

\*While this indicator summary report card is specific to this chapter of the SoE 2018 Report, a full indicator report card across all report themes is available for free download.

# SUMMARY REPORT Part I SoE 2018 Report Card

## Indicator

**W:05** Litter and Illegal Dumping

Annual survey of 151 sites across Victoria, with an area surveyed of 239,403 square metres.

## Region

Victoria

## Measures

Counts of litter by type

## Data custodian

National Litter Index (Keep Australia Beautiful) SV

DATA QUALITY

Poor

## Indicator

**W:06** Total hazardous waste managed

Hazardous waste (excluding biosolids) are recorded as arising when it is delivered to processing, storage, treatment or disposal infrastructure.

## Region

Victoria

## Measures

Tonne/yr

## Data custodian

Derived from Hazardous Waste in Australia 2017 (Dept. Environment and Energy 2017) from EPA source data. EPA

DATA QUALITY

Fair
